DETAILED ACTION

1. This Office Action is responsive to the Amendment filed on 11/16/2007.
2. In Claim 3, line 1, the phrase "The method of claim 1" should be changed to –The method of claim 2--.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1, 6, 14, 19 and 20 are rejected under 35 U.S.C. 102(e) as being anticipated by Combs et al (US Patent No. 7,190,903).

Regarding claims 1, 6 and 14, referring to Figures 1 and 4, Combs et al teaches a method for communicating in a time-domain wavelength interleaved network having a hub node (i.e., Mux node, Fig. 1), comprising:

transmitting substantially all communications through the hub node (i.e., Mux node, Fig. 1) without changing a wavelength of the communications at the hub node (i.e., Figs. 1 and 4, col. 5, lines 35-45).

Regarding claim 19, Combs et al teaches further comprising a plurality of the nodes interconnected in a tree configuration (i.e., Figs. 1 and 4).

Regarding claim 20, Combs teaches further comprising a plurality of trees of nodes, each of the trees having a hub node, each of the hub nodes interconnected in a ring configuration (i.e., Figs. 1 and 4).

Allowable Subject Matter

5. Claims 2-5, 7, 8 and 15-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 9-13 are allowed.

Response to Arguments

7. Applicant's arguments with respect to claims 1-20 have been considered but are moot in view of the new ground(s) of rejection.
